TRADE PRICE LIST OF
Chinese Cinnamon Vines.

(DIOSCOREA BATATAS.)

This beautiful gem of the Orient is possessed of truly remarkable selling qualities, and is a most marvelous money maker—a fact that is proved by the annual increase of the orders we receive from our customers. One seed-man alone, sold 40,000 tubers last season.

At no previous time have we had so copious a yield as now. In view of this, it is a source of no little pleasure to us to set forth prices which, by virtue of their lowness, must be of interest to every Florist, Nurseryman, Seedman, or to anyone who issues a catalog, or who sells either by his own efforts or thru the agencies of others.

As we are Headquarters for, and the largest producers of these vines, we can therefore consistently supply stock of greater excellence, assure better satisfaction and quote lower rates than any other dealer. The major portion of the American houses and not a few foreign ones, are numbered among our patrons.

We are thus in a position to provide cleanly washed, thoroly dried and cured tubers, which are at once strong, thriving, and unquestionably of the highest grade. These tubers are agreeable to handle, may be shipped by mail or express all through the winter, are easily packed, and certain to grow. We are positive they will please even a most fastidious person.

The tubers will neither rot nor dry up, and, as before alluded to, they sell readily and at an immense profit, which makes them an absolutely safe and sure investment. Do not fail to notice our greatly reduced prices.
